

# Lions Tea

This unique unblended tea comes to you directly from our Lions tea factory, located in a scenic environment bordering to the world famous "Sinharaja" rain forest in Ruhuna region of the tropical peral; Ceylon.

The factory produces exclusive quality low grown teas from lush green tender leaves of "Camellia Sinensis" which thrive under optimum climatic conditions exist in the region. The particular soil & climate in this region gives these teas the desired blackness & strong distinctive taste.

Lions Tea has also received numerous awards, citations and certification from several prestigious institutions. Combining the best of traditional tea growing, with the infusion of modern technology in processing and packing under international food safety standards without being harmed to their natural flavour & aroma, Lions Tea has made impressive inroads into the international market with its distinctive range of 'Low-grown' teas.

By consuming Lions tea you acquire the opportunity of tasting one of the best unblended pure Ceylon teas ever as well as giving a great contribution to the upliftment of the living standards of our workforce & small scale tea growers while being an esteemed partner of a quality & safety conscious group of consumers.
